**Moderator: Robert JĘDRZEJCZYK, Legal Adviser and Partner, GIDE LOYRETTE NOUEL**

- ◆ The impact of EU environmental regulations on the development of the Polish power grid:
  - ◇ reduction in the emission of greenhouse gases;
  - ◇ requirements for renewable energy sources;
  - ◇ research and mining of shale gas;
  - ◇ construction of a nuclear power plant.
- ◆ Directions of development for heat and power plants in Poland that ensure an effective change in the energy-mix /coal – gas – renewable energy – nuclear power.
- ◆ Are external energy sources an alternative to national production?
